2020	58.15	Moderate Risk	-6.17	3.23	75.73
2019	45.79	Moderate Risk	0.26	4.10	64.59
2018	39.96	Moderate Risk	1.56	4.51	59.10

Methodology Note

Methodology note: The sovereign risk score is a composite indicator built from macroeconomic and structural variables. Higher scores indicate higher relative risk within the selected country set. Scores should be interpreted as analytical signals rather than official sovereign ratings.
